1. Introduction

The Draft Westmeath Development Plan 2021 – 2027 was placed on public display from 28th February 2020 until 5th May 2020. This consultation period was, however, further extended up until 30th June 2020 due to the Covid-19 Pandemic.

A total of 158 submissions and observations were received during the prescribed period in response to this stage of public consultation. In accordance with the requirements of Section 12(4)(b) of the Planning and Development Act 2000 (as amended), a Chief Executive’s Report was prepared, which summarised and detailed the submissions received on the Draft Development Plan and provided the response and recommendations of the Chief Executive to the issues raised.

The Elected Council Members, having considered the Draft Westmeath Development Plan 2021-2027 and the Chief Executive’s Report on submissions received, resolved, following Council meetings dated 16th, 17th, 18th, 19th and 24th November 2020, to amend the Draft Westmeath Development Plan. These proposed amendments, if made, constitute a material alteration to the Draft Westmeath Development Plan 2021-2027. Accordingly, the Council resolved to place the proposed amendments on public display for a period of not less than 4 weeks, in accordance with Section 12(7)(b) of the Planning and Development Act 2000 (as amended).

1.1 Proposed Amendments to the Draft Westmeath Development Plan 2021-2027

This document is accompanied by amendments to the maps contained in Volume 2 Book of Maps. Volumes 3-5 contain the SEA, AA and SFRA Screening of the proposed amendments to the Draft Westmeath Development Plan 2021-2027. An SEA Environmental Report and Screening Determination (which includes information on the likely significant effects on the environment of implementing the proposed amendment) and an AA Screening Report and AA Determination have been undertaken, in order to inform and assist the public and other interested parties in consideration of the proposed amendments to the Draft Westmeath Development Plan.

Written observations or submissions submitted during the consultation period, regarding the proposed amendments and the likely significant effects on the environment of their implementation will be taken into consideration before the making of the Westmeath County Development Plan 2021 - 2027.

After the consultation period ends, the Chief Executive will prepare a report on all submissions and observations received during the prescribed period and submit the report to the Elected Members for their consideration. Having considered the Proposed Amendments to the Draft Plan and the Chief Executive’s Report on submissions received, the Elected Members may, by resolution, make the Westmeath Development Plan 2021-2027 with or without amendment (of a non-material nature).

1.3 How to Make a Submission/Observation

Written observations or submissions regarding the **proposed amendments only** must be received between:

15th December 2020 and by 5:00pm on 20th January 2021, either;

<https://consult.westmeathcoco.ie/en/consultation/draft-westmeath-county-development-plan-2021-2027>

Or

- In writing to:
Administrative Officer, Forward Planning, Westmeath County Council, Civic Offices, Mount Street, Mullingar, Co. Westmeath, N91 FH4N

Submissions/observations to be made by **one** medium only and should include:

- Proposed Amendment(s) **Reference Number(s)** as shown in the document
- Full Name & Address of person making submission/observation
- Details of organisation/community group/company which you represent where relevant.

Please note that submissions that do not relate to a proposed amendment, cannot be taken into consideration.

1.4 How this Document is Organised

Written Statement

Proposed amendments to the text of the Draft Plan are assigned a Reference Number and their location in the Draft Westmeath County Development Plan 2021-2027 is referenced where applicable (references to page numbers are to the Draft Westmeath County Development Plan page number).

The proposed amendments to the Written Statement of the Draft Westmeath County Development Plan 2021-2027 are set out in this document. The text of the Draft Westmeath County Development Plan 2021-2027 is shown in normal font.

Additions to the text are shown in green print, for example:

Reference Number: Proposed Amendment CE OPR 1.4

Update CPO 3.13 of the plan as follows:

Support the ongoing monitoring and review of the HNDA, **over the lifetime of the Plan**, in conjunction with the Department of Housing, Planning and Local Government **having consideration to the outcomes of any revised Development Plan Guidelines**, and where appropriate, take any steps considered necessary to align with the approach set out in these guidelines.

Deletions to the text are shown in red print with strikethrough, for example:

Reference Number: Proposed Amendment CE OPR 1.25

Delete CPO 8.103 of the plan as follows:

~~Support the construction of a link road between the Killucan Road L1015 and the roundabout at the junction of the R446-2 and N4-1120, thereby creating a bypass of the Main Street, Kinnegad (See Map 7).~~

Volume 2 Book of Maps

The proposed Amendments to the maps of the Draft Westmeath Development Plan 2021- 2027 are set out in a separate Volume 2 Book of Maps.

Volumes 3-5 SEA, AA & SFRA

An Addendum to the Strategic Environmental Assessment, Natura Impact Report and the Strategic Flood Risk Assessment includes proposed amendments to these respective documents and is set out in a separate accompanying document.

2.1 Chapter 1 Introduction

Chapter 1		
Proposed Amendment CH 1.1		
Section:	Heading	Page No.
1.1	Introduction	2

Insert addition text under Section 1.1 of the plan as follows:

The Draft Westmeath County Development Plan 2021-2027 sets out the Council's proposed policies and objectives for the development of the County over the Plan period. **In this regard the CPO's listed in the Plan constitute the policies and objectives of the Plan.** The Development Plan seeks to develop and improve, in a sustainable manner, the social, economic, environmental and cultural assets of the County.

Chapter 1		
Proposed Amendment CH 1.2		
Section:	Heading	Page No.
1.5	Legislative Context	8

Insert reference to both the National Strategic Outcomes (NSOs) of the NPF and the Regional Strategic Outcomes (RSOs) of the RSES under Section 1.5 of the plan.

1.5 Legislative Context

This plan should be read in the hierarchical context of legislation and plans that exist at International, National and Regional level. Since the adoption of the Westmeath County Development Plan 2014 – 2020 there have been significant developments at national and regional level in terms of strategic economic and planning policy - in particular, the publication of the National Planning Framework – Ireland 2040 (NPF), the National Development Plan 2018-2027 (NDP) and the Regional Spatial and Economic Strategy (RSES) for the Eastern & Midland Regional Assembly (EMRA) 2019 – 2031.

- **The National Planning Framework (NPF)**

The NPF is the overarching planning policy for the state (published in February 2018 under Project 2040) and contains ten National Strategic Outcomes and 75 National Policy Objectives. This planning framework sets out where development and investment should be guided to shape the national, regional and local spatial development in economic, environmental and social terms to 2040. **The ten shared goals or National Strategic Outcomes prescribed in the NPF are as follows:**

Figure 1.2 National Strategic Outcomes of the National Planning Framework, NPF Pg. 13

- **The Regional Spatial and Economic Strategy (RSES) Eastern & Midland Regional Assembly (EMRA) 2019**

The principal statutory purpose of the RSES is to support the implementation of Project Ireland 2040 and the economic policies and objectives of the Government by providing a long-term strategic planning and economic framework for the development of the Eastern and Midland Region. **The development of Regional Strategic Outcomes in the RSES is also closely aligned and supportive of both the NSO's prescribed in the NPF and the UN Sustainable Development Goals as indicated below:**

 **SUSTAINABLE DEVELOPMENT GOALS**

Proposed Amendment CH 2.1		
Section:	Heading	Page No.
2.3	Strategic Development of County Westmeath within a Regional Context (Eastern & Midlands Region)	23

Insert new text under Section 2.3 of the plan as follows:

Westmeath benefits from a strategic national road network reflecting its central location in the country. The N/M4 Dublin to Sligo (including connection via the N5 to Castlebar/Westport) corridor and the N/M6 Dublin to Galway corridor through County Westmeath are included as part of the EU TEN-T Comprehensive Network. In addition, the N51, N52, N55 and N62 national secondary roads, are important road corridors in County Westmeath. Together the EU TEN-T Network and the national roads identified provide important strategic links within and through the county and region, including providing critical international connectivity.

* Lands zoned for 'Mixed Use', 'Expanded Settlement' and 'Existing Residential' have, based on previous experience, the capacity to deliver only nominal levels of residential growth over the lifetime of the Plan. In this regard, such lands are expected to provide capacity for a housing yield of c.15 units per year over the 6-year lifetime of the Plan.

*** Lands relate to the zoning objective 'Proposed Residential'. Part of residentially zoned lands identified will be absorbed by serviced sites (indicated at Chapter 8 Settlement Plans) at a lower density.*

**** Figures for infill and brownfield land within each settlement form part of the overall figures for 'Land for residential in this plan up to 2027 (Ha)' and do not provide supplementary land for residential development.*

2.6 Chapter 6 Tourism

Chapter 6		
Proposed Amendment CH 6.1		
Section:	Heading	Page No.
6.2.1	Tourism in Ireland	133

Amend the 2nd paragraph in Section 6.2.1 of the plan as follows:

National tourism policy falls within the remit of the Department of Transport, Tourism and Sport and national agencies, Fáilte Ireland and Tourism Ireland. ~~deliver and implement the adopted policy. The sector is continually evolving and our national bodies carry out research with domestic and international markets to ensure that policy is reflective of these changes. Ireland is promoted nationally and internationally using 'Brand Ireland', under which four distinct experience propositions are used to define the appealing characteristics of each region. Westmeath sits within two of these regional experience brands, 'Ireland's Ancient East' to the east, including Mullingar and the newest of the four brands, 'Ireland's Hidden Heartlands' to the west, including Athlone.~~ Fáilte Ireland is the National Tourism Development Authority. Its role is to support the tourism industry and work to sustain Ireland as a high-quality and competitive tourism destination. It provides a range of practical business supports to help tourism businesses better manage and market their products and services. It also works with other state agencies and representative bodies, at local and national levels, to implement and champion positive and practical strategies that will benefit Irish tourism and the Irish economy. Tourism Ireland is responsible for marketing the island of Ireland overseas as a leading holiday destination.

Chapter 6		
Proposed Amendment CH 6.2		
Section:	Heading	Page No.
6.2.2	Tourism in Westmeath	134

Amend Section 6.2.2 and add '*Dun na Si Heritage and Amenity Park*' to the list of attractions in the final paragraph as follows;

Ireland's Ancient East, launched in 2015, is the third regional experience brand from Fáilte Ireland and includes the majority of County Westmeath, from Moate eastwards. In line with this brand,

Westmeath offers a rich heritage, with local storytellers who provide unforgettable tours of our ancient sites. Attractions include **Dun na Si Heritage and Amenity Park**, the Hill of Uisneach, Belvedere House, Gardens and Park, Kilbeggan Distillery, Tullynally Castle gardens and Fore Abbey. The lakes and waterways of Westmeath are also connected with a rich heritage, including the famous legend of the Children of Lir associated with Lough Derravarragh. The Royal Canal traverses the county, with many preserved original bridges and locks visible to those who travel this route by boat, bike or foot and the Old Rail Trail Greenway brings visitors along the historic Great Western Railway line through the scenic Midlands landscape.

Chapter 6		
Proposed Amendment CH 6.3		
Section:	Heading	Page No.
6.2.2	Tourism in Westmeath	134

Amend text under Section 6.2.2 of the plan as follows:

Westmeath is a county with considerable heritage and cultural assets, along with a scenic and rich natural environment. Coupled with our vibrant towns and villages and easily accessible location, it is evidently a county of high potential for tourism. Historical Fáilte Ireland and CSO visitor research has included County Westmeath as part of the Midlands region, which has not experienced a growth in visitor numbers commensurate to our coastal counterparts. The county itself however has been out-performing some of our neighbouring counties, due to a number of strong visitor attractions and a critical mass of visitor services concentrated in the towns of Athlone and Mullingar. **Fáilte Ireland's figures indicate that in 2018, Westmeath welcomed 1% of the 9,609 million overseas tourists who came to Ireland, spending 1% of the €5,217bn overseas tourism expenditure in Ireland. Irish residents took 238,000 trips to Westmeath (2% of the 10,918 million domestic trips in 2018) spending €27m (1% of domestic tourist spend).** ~~Annual visitors to the county reached 262,000 in 2017, of which 103,000 were from overseas. Approximately 42% of the county's overseas visitors are from Britain, 34% from mainland Europe and 18% from North America.~~

Chapter 6		
Proposed Amendment CH 6.4		
Section:	Heading	Page No.
6.3	Policy Context	137

Insert reference to Fáilte Ireland Destination Development & Commercial Development Plans in Section 6.3 as follows:

6.3.8 Fáilte Ireland Destination Development & Commercial Development Plans.

Ireland's Ancient East has developed a suite of five-year Destination Development Plans. These are designed to be a roadmap for enhancing the existing Ireland's Ancient East visitor proposition to achieve the objectives of addressing seasonality, increasing visitor numbers, improving dwell time and visitor dispersion across the destination. The Tales of Two Worlds Plan sets out to enhance the experiences at the stunning Houses and Gardens products as well as the attractions that tell the story of emigration and endeavour.

6.3	Policy Context	137

To make reference to Fáilte Ireland's Guidance on Sustainable Tourism in Section 6.3 of the plan as follows;

6.3.9 Fáilte Ireland's Guidance on Sustainable Tourism

Fáilte Ireland promotes the incorporation of the principles of sustainability in the tourism policy section of the County Development Plan. Fáilte Ireland has developed five key principles that ensure developments achieve a balance between appropriate tourism development and economic, environmental and social sustainability. Developments will be assessed having regard to compliance with these and the associated policies.

Principle 1: Tourism, when it is well managed and properly located, should be recognised as a positive activity which has potential to benefit the host community, the place itself and the visitor alike. Sustainable tourism planning requires a balance to be struck between the needs of the visitor, the place and the host community.

Principle 2: Our landscapes, our cultural heritage, our environment and our linguistic heritage all have an intrinsic value which outweighs their value simply as a tourism asset. However, sustainable tourism planning makes sure that they can continue to be enjoyed and cherished by future generations and not prejudiced simply by short term considerations.

Principle 3: Built development and other activities associated with tourism should in all respects be appropriate to the character of the place in which they are situated. This applies to the scale, design and nature of the place as well as to the particular land use, economic and social requirements of the place and the surroundings.

Principle 4: Strategic tourism assets – including special landscapes, important views, the setting of historic buildings and monuments, areas of cultural significance and access points to the open countryside, should be safeguarded from encroachment by inappropriate development.

Principle 5: Visitor accommodation, interpretation centres and commercial / retail facilities serving the tourism sector should generally be located within established settlements thereby fostering strong links to a whole range of other economic and commercial sectors and sustaining the host communities. Sustainable tourism facilities, when properly located and managed can, especially if accessible by a range of transport modes, encourage longer visitor stays, help to extend the tourism season and add to the vitality of settlements throughout the year. Underlying these principles for Sustainable Tourism, the definitions of economic, environmental and social sustainability against which any tourism project assessed are defined as follows:

Economic sustainability must be considered to ensure that the tourism sector is managed. The key strengths of the County include landscape, heritage, natural environment, lifestyle and amenity pursuits. The sector is highly affected by seasonality and there are extremes in visitor numbers at key attractions contrasted with smaller attractions which struggle to maintain visitor numbers. These ‘peaks and troughs’ should be carefully managed to ensure the protection of natural resources. Tourism innovation should also be encouraged – particularly where it brings about environmental benefits. Finally, for projects to be economically sustainable they should meet the needs of the permanent and also visitor population alike, so the preparation of robust business plans for all such developments will ensure proposals are viable and sustainable.

Environmental sustainability will be central to the development and protection of a viable tourism sector and this is a key consideration in a County where tourism attractions are located in environmentally sensitive areas and close to historic areas where the quality of the built heritage and environment must be protected from inappropriate development – whether tourism related or not. The ‘mainstreaming’ of policy guidance tools such as the Strategic Environmental Assessment (SEA) will undoubtedly address any deficits in relation to many of these key policy areas.

Social Sustainability is arguably more difficult to assess. Many of the potentially negative impacts of tourism development can however be addressed through careful consideration of the social and cultural nature of the receiving environment. The impacts that large-scale developments can have on

existing local communities policies can be assessed having regard to the impact of visitor numbers on local quality of life, culture and heritage – with a particular emphasis placed on unique areas such as culturally sensitive areas where small impacts over time may have a significant cumulative effect.

6.4.1	General Tourism Development	138

Insert the following text under Section 6.4.1 as follows:

The key to unlocking the growth potential of an area is the development of experiences that will motivate potential tourists to firstly visit there and secondly to dwell in the area. These new experiences are less concerned with visitors passively seeing or doing things; they encourage tourists to immerse themselves actively in the locale, interacting with people, engaging the senses, and learning the history and stories of the places. Fáilte Ireland’s response to this challenge has been the creation of a framework to develop and deliver destination development plans along with strengthening destination towns. Ireland’s Ancient East has started work on a number of Destination Development Plans which aim to develop world-class experiences focused on the region’s rich heritage. The themes of the Experience Development Plans have been designed to enhance each area’s strongest tourism assets and appeal to core overseas markets. Vitally, these plans will be delivered in a way that encourages visitors to spend more time in an area, without compromising the environment or culture of the region. The ‘Tales of Two Worlds’ Development Plan brings together

Ireland's historic houses and gardens, and the period in Ireland's history of famine and emigration. A number of Westmeath businesses are now taking part in a bespoke Great Houses & Gardens Experience Development Programme as part of this, which focuses on the county's rich historic houses and gardens. The Ancient Destination Development Plan is also bringing together businesses in Westmeath to develop world-class experiences centred around the area's rich ancient history including the Hill of Uisneach, connecting Westmeath with the wider geography of the Boyne Valley.

6.4.2	Destination Towns	140

To add the following text to the end of the first paragraph under Section 6.4.2 as follows;

In planning their trip, visitors need reassurance that there will be plenty of quality things to see and do both in the day time and evening, along with a range of accommodation options and restaurants. The most effective and efficient way to deliver this for visitors is through destination towns. Athlone and Mullingar both offer high-quality visitor services including a range of accommodation, restaurants, cafes, visitor attractions and guided tours. Current provision enables both towns to serve tourism to the range of surrounding attractions and amenities. In this regard, Athlone has been granted investment under Fáilte Ireland’s Destination Towns funding Programme.

6.9	Arts, Culture and Festivals	150

To add the following text to Section 6.9 of the plan as follows:

Fáilte Ireland has identified festivals as a key driver for tourism growth, particularly during off- season times. They are an important component of the Irish tourism product offering. They provide

opportunities to showcase culture, food, people and places, thereby greatly improving the tourist experience. Investment in and business development support for festivals is helping to drive growth and entice both domestic and overseas visitors to different parts of the country in the off-peak season. A number of vibrant festivals enable local communities to celebrate a valuable cultural heritage and spotlight local talent and unique local attributes. The International Drama Festival is hosted in Athlone annually, spotlighting Athlone as an important venue for the performing arts, while the Bealtaine Fire Celebration at Uisneach highlights the traditions and rituals associated with this ancient heritage site. While some festivals remain small in scale year after year, reaching only a local audience, others have the ambition to grow into larger events, capable of attracting larger numbers of visitors, resulting in a greater impact to the local economy and highlighting the festival location as one worth visiting to a wider audience. The Council will seek to support these festivals where possible, to support their growth potential, subject to event licensing and quality standards.

10.3.3	Legislative and Transport Policy Context	273

Amend the text in Section 10.3.3 of the plan as follows:

10.3.3 Building on Recovery: Infrastructure and Capital Investment 2016-2021

~~The document 'Building on Recovery – Infrastructure and Capital investment 2016-2021' (Department of Public Expenditure and Reform) sets out future capital spending proposals for investment in infrastructure. €42 billion has been allocated for projects nationally up to 2021. Following a review in 2018, the Government published a new 10-year National Investment Plan for the period 2018-2027.~~

10.3.3 National Development Plan 2018-2027

The 'National Development Plan 2018 - 2027' (NDP) sets out the investment priorities that will underpin the implementation of the National Planning Framework, through a total investment of approximately €116 billion over a ten years period. 'Project Ireland 2040' is the government's long-term overarching strategy, which outlines investment in public infrastructure in Ireland. A fundamental underlying objective of the National Development Plan is to focus on continued investment in public infrastructure.

Amend the text in Section 10.3.5 of the plan as follows:

This document, which is currently under review by the Department of Transport, sets out how the vision for a sustainable travel and transport system can be achieved. ~~The policy recognises the vital~~

~~importance of continued investment in transport to ensure an efficient economy and continued social development. The Government reaffirms its vision for sustainability in transport and sets out five key goals:~~

- ~~i. To reduce overall travel demand.~~
- ~~ii. To maximise the efficiency of the transport network.~~
- ~~iii. To reduce reliance on fossil fuels.~~
- ~~iv. To reduce transport emissions.~~
- ~~v. To improve accessibility to transport.~~

~~The National Cycle Policy Framework 2009-2020 (Department of Transport) which is derived from Smarter Travel, sets out a national policy for cycling, in order to create a stronger cycling culture, a safer environment for cycling and improved quality of life.~~

A new Sustainable Mobility Policy, which will be closely aligned with the national strategic outcomes of 'Project Ireland 2040', will be developed over the course of 2020.

National Policy Framework for Alternative Fuels Infrastructure for Transport in Ireland:

‘The National Policy Framework for Alternative Fuels Infrastructure for Transport in Ireland 2017-2030’ was published in May 2017. It sets out the ambition that all new cars and vans sold in Ireland from 2030 will be zero emission (or zero emission-capable). A range of policy measures aimed at supporting the transition to low emission vehicles are set out in the *‘National Policy Framework’*. Furthermore, the *‘National Mitigation Plan’* published in July 2017 reiterates this ambition and also includes supporting actions towards this objective.

10.4.5 Bus

The development of a quality bus system as an alternative to private car use is an essential element of an integrated and balanced land use transport system. Westmeath is well serviced by Bus Éireann expressway services, which primarily mirror the national primary routes and traverse the County on an east-west axis. There is a **Local Link bus services within the county, however there is a need for increased bus services to improve connectivity between the main urban centres in the north and south of the County and to regional centres. 10.4.6	Public Transport in Rural Areas	282

Insert reference with regard to the role of National Transport Authority in providing public transport in Section 10.4.6 of the plan as follows;

10.4.6 Public Transport in Rural Areas

The National Transport Authority (NTA) was established in 2009 and is charged with overall responsibility for public transport service provision in County Westmeath. In this regard, the role of the NTA involves:

- A Public Service Obligation (PSO) contract between the NTA and Irish Rail;
- A PSO contract between the NTA and Bus Éireann;
- Direct award contracts for the operation of bus services; and
- The licencing of commercial bus services.

In addition, the NTA provides rural transport services through the Local Link Rural Transport Programme. The key priorities of this programme continue to be directed at addressing rural social exclusion and the integration of rural transport services with other public transport services.

The NTA will develop and expand the Local Link Rural Transport Programme in the following manner:

- seek further integration with other public transport services, including HSE and school transport;
- ensure fully accessible vehicles operate on all services;
- enhance the customer experience;
- increase patronage among children and young people; and
- encourage innovation in the service.

The availability of public rural transport plays a major role in combatting rural isolation and acts as a catalyst in creating models of partnership, at all levels, where key sectors actively engage in transport provision, to ensure equality of access for all.

10.17	Waste Management	303

Insert a new paragraph at end of Section 10.17 of the plan as follows:

In recent years there has been a move away from the disposal of waste to landfill. According to Section 22 of the '*Waste Management Act 1996*' as amended, there are 14 sites within Westmeath on the

Register for Closed landfills. Historic landfills are those unregulated facilities that operated for the recovery or disposal of waste pre 1977.

Since 1977, there are 2 other landfills in the county, namely Ballydonagh and Marlinstown, which were regulated under waste licence from the EPA and which are now closed (2010 and 2002 respectively). There is no open landfill operating in the county at present.

The Council has carried out a risk assessment on all unregulated landfills. Only 2 of those landfills (Moate & Lickbla) were identified from the preliminary Tier 1 risk assessment as having an associated high risk. Further risk assessment is required on the Lickbla facility. In the case of Moate, full remediation works are on-going at present and due for completion later this year. The two licenced landfills at Ballydonagh and Marlinstown, although closed, continue to be monitored by the Council in accordance with the conditions of the waste licences.

The Council will continue to support the remediation of former landfill sites listed in Table 10.4 below, subject to compliance with legislative and regulatory requirements.

10.26	Bio-Energy	312

Amend Section 10.26 of the plan as follows:

There are many bio energy fuel sources and technologies, and several conversion alternatives (i.e. indirect sources that can be converted into biofuel). All dry resources; wood and wood residues (forest or sawmill residues) and dry agricultural residues such as straw, ~~can be combusted to produce heat, electricity or both, and can also be co-fired in existing solid fuel systems.~~ has the potential to be combusted to produce heat, electricity or both, in suitable designed boilers. However, it must be noted that for typical commercial and industrial biomass burners as well as domestic units, a high specification biomass fuel must be used. Forest and wood residues require larger more robust boiler units – typically those used to generate electricity from peat. Energy crops, principally short rotation coppice, can also produce dry fuels for combustion. Wet resources can be processed through anaerobic digestion, producing a methane rich gas for combustion. Such resources include agricultural slurries, sewage sludge, food and catering wastes and the biodegradable fraction of municipal solid waste. An additional bio-energy resource is landfill gas, which can be collected at landfill sites and then combusted to extract its energy value.

10.29	Non-Renewable Energy	314

Amend text in Section 10.29.1 of the plan as follows:

Eirgrid the national body responsible for the management of the electricity transmission network, have planned key investments, upgrading of the transmission network and new circuit build and reinforcement, to cater for continued demand in the ~~Linked Gateway~~ towns of Athlone and Mullingar.

The upgrading of the transmission network will facilitate power flows from both renewable and conventional sources to maximise the use of existing power corridors.

The Government Policy Statement on the Strategic Importance of Transmission and Other Energy Infrastructure (July 2012) acknowledges the strategic and economic importance of investment in networks and energy infrastructure. The Government endorses the major investment underway in the high voltage electricity system under EirGrid's Grid 25 Programme. The Planning Authority recognises the need for development and renewal of energy networks, in order to meet both economic and social policy goals and where appropriate, will consider the impact of proposed developments on the electricity grid network.

12.17	Peatlands	361

Amend Section 12.17 of the plan as follows:

The Council recognises the importance of peatlands as a major natural, archaeological and non-renewable resource **in addition to recognising the important historical traditions and peat management skills associated with cutting turf for domestic use.** In their natural state peatlands act as long-term sinks for atmospheric carbon dioxide. Peatlands are the most important long-term carbon store in the terrestrial biosphere. They sequester and store atmospheric carbon for thousands of years. Given the extent of intact raised bogs in Westmeath, considerable potential exists to use this valuable resource to mitigate against the impacts of climate change.

6.6	Community Infrastructure and Facilities	439

Amend CPO 16.43 of the plan as follows:

Education Facilities

The location and provision of schools and other educational facilities are an integral part of the evolution of compact sustainable urban development and the development of sustainable communities, both in an urban and rural context. In this regard, the Council seeks to undertake planned approach to education provision and the location of new school facilities within settlements and with access to public transport and active travel modes, where feasible.

In assessing planning applications for educational facilities, the following considerations will be taken into account:

Compliance with the ‘*Guidelines on The Provision of Schools and the Planning System – A Code of Practice*’ (2008).

The need for school accommodation.

Justification for proposed site location

Details on accessibility, including pedestrian, cycle and public transport provisions and linkages to the proposed development. **In this regard, schools should be located in such a manner as to maximise the number of pupils who will live within walking and cycling distance, connected by a safe and continuous network serving these modes. The design of school facilities should prioritise accessibility by non-car modes and encourage reduced use of the private car.**

Adequate and safe set-down and collection areas to facilitate peak traffic movements and adequate car parking for staff.

Mobility Management Plan for the proposal having regard to the National Transport Authority publication '*Workplace Travel Plans: A Guide for Implementers and the Toolkit for School Travel*'.
